AMENDMENTS TO THE ABSTRACT

Please substitute the following paragraph for the abstract now appearing in the currently filed specification:

A wireless local area network communication system for a vehicle to provide a voice and/or data connection from a wireless wide area network to a wireless local area network and on to a vehicle wired bus is disclosed. The communication system includes a wireless electronic communication device disposed in or in proximity to the vehicle for communication with the wireless wide area network, a wireless local area network unit disposed in the vehicle in such a manner as to communicate with the wireless electronic communication device and with a wired vehicle bus disposed within the vehicle, and a plurality of electronic devices disposed in or in proximity to the vehicle and in communication with the local area network unit or the wireless electronic communication device.
